The Group's unweighted equity ratio was 15.6 (15.3) per cent at year-end.

The Group achieved a net interest margin of 2.46 (2.44) per cent in 2015, inclusive of home mortgages in the covered bond company. The twelve-month growth in lending and deposits was 9.3 (6.8) per cent and 7.7 (3.2) per cent, respectively. At year-end, the deposit coverage ratio was 76.4 (77.8) per cent.

The Parent Bank's profit after tax for 2015 was NOK 796 (676) million. The core equity tier 1 ratio was 24.1 (21.7) per cent.

Sparebanken Hedmark's conversion of 60 per cent of its primary capital to equity share capital and the establishment of Sparebanken Hedmark Sparebankstiftelse was completed on 26 November. The equity share capital consists of 79,740,000 equity certificates, all of which are owned by the foundation.

On 12 December, Sparebanken Hedmark signed an agreement for the purchase of the remaining shares in Bank 1 Oslo Akershus AS. Following the acquisition, the Sparebanken Hedmark Group will be Norway's fourth largest savings bank with total business capital of around NOK 125 billion and operations in the counties of Hedmark, Oppland, and Akershus og Oslo. Implementation is contingent on the approval of the authorities.

Sparebanken Hedmark is planning to list on the stock exchange in the second half of 2016. Upon its listing, the foundation will sell part of its holding of equity certificates, although the foundation may not own less than 50 per cent of the Bank's equity certificates.

Sparebanken Hedmark – consolidated profit in the fourth quarter

The Group prepares its financial statements in accordance with the IAS 34 accounting standard.

The Group consists of Sparebanken Hedmark and the consolidated, wholly-owned subsidiaries EiendomsMegler 1 Hedmark Eiendom AS, SpareBank 1 Finans Østlandet AS, Vato AS and SpareBank 1 Regnskapshuset Østlandet AS.

The Bank owns 40.5 per cent of Bank 1 Oslo Akershus AS, 11 per cent of SpareBank 1 Gruppen AS and 8.7 per cent of SpareBank 1 Kredittkort AS. The Bank also owns 10 per cent of SpareBank 1 Boligkredit AS and 3.8 per cent of SpareBank 1 Næringskredit AS (the covered bond companies). The results from the above companies are recognised in the Bank's consolidated financial statements proportionate to the Bank's stake.

The Group's profit after tax for the fourth quarter was NOK 194 (214) million. The return on equity in the quarter was 8.9 (11.3) per cent. Exclusive of the return on securities and derivatives, the return on equity was 7.9 per cent.

Net interest income in the quarter amounted to 2.08 (2.17) per cent of average total assets, while the net interest margin was 2.53 (2.45) per cent. Net interest income increased by NOK 17 million to NOK 289 (272) million, while net commissions and other operating income increased by NOK 1 million to NOK 159 (158) million.

The total net result from financial assets and liabilities was NOK 103 (126) million for the fourth quarter. The net result from ownership interests fell by NOK 27 million compared with the year before. Bank 1 Oslo Akershus AS contributed NOK 19 (34) million, while SpareBank 1 Gruppen AS contributed NOK 39 (56) million.

The net result from other financial assets and liabilities amounted to NOK 33 (29) million. The improvement was primarily attributable to changes in value due to the spread widening for bonds and lower interest rates on fixed-rate loans for customers.

The operating costs of NOK 292 million were NOK 29 million higher than in the four quarter of last year. NOK 9 million of this increase was due to increased personnel

costs and NOK 20 million was due to higher other operating costs. The cost/income ratio, measured as costs in relation to total income, was 52.9 (47.3) per cent in the fourth quarter.

At the end of the quarter, there were 727 (673) full time equivalents in the Group. The Group's losses in the quarter amounted to NOK 18 (24) million.

The proportion of problem loans, defined as the total non-performing commitments and other impaired commitments, as a percentage of total commitments (exclusive of the covered bond companies) amounted to 1.1 (1.2) per cent.

Interest income and other operating income

Total net interest income, inclusive of commissions from loans and credit transferred to partly-owned companies (recognised as commissions), amounted to NOK 1,293 (1,271) million. This represents an increase of 1.7 per cent compared with 2014.

The Group's net interest income as a percentage of the average total assets was 2.08 per cent in 2015, compared with 2.14 per cent in 2014.

The Group's lending margin, inclusive of home mortgages in the covered bond company, amounted to 2.68 (2.96) per cent. The deposit margin was -0.22 (-0.52) per cent. The Group's net interest margin was 2.46 (2.44) per cent.

Net commissions decreased from NOK 525 million last year to NOK 461 million this year. This was primarily attributable to a NOK 40 million drop in commissions from loans transferred to the covered bond companies due to reduced margins. 2014 also saw the recognition

of NOK 41 million in extraordinary income from SpareBank 1 Kredittkort AS.

Other operating income increased by NOK 52 million to NOK 190 million. This was largely due to SpareBank 1 Regnskapshuset AS's increased turnover.

The total income from the Group's accounting and estate agency business was NOK 253 million in 2015. This represents an increase of NOK 48 million or 23 per cent.

Net result from financial assets and liabilities

The net result from financial assets and liabilities fell by NOK 58 million to NOK 515 (573) million. Dividends were NOK 5 million lower and the net result from ownership interests fell by 92 million. The profit from the sale of the shares in the payment systems company Nets Holding ASA contributed NOK 158 million in 2014. Changes in the market value of securities saw an improvement in the result of NOK 39 million in 2015.

The share of the profit from Bank 1 Oslo Akershus AS accounted for NOK 103 (183) million of the result from ownership interests and the share of the profit from SpareBank 1 Gruppen AS accounted for 142 (202) million.

The net result from other financial assets and liabilities amounted to NOK 205 (166) million.

The Bank's securities issued, fixed-income investments, derivatives and fixed-rate products for customers are assessed at fair value through profit and loss pursuant to IAS 39, and changes in market value are recognised in profit and loss. The total net change in market value for fixed-income securities amounted to NOK 184 (-36) million, while the change in value for fixed-rate products for customers was NOK 15 (28) million. Other items amounted to NOK 6 (174) million. Nets accounted for NOK 158 million in 2014.

The so-called trading spread for Norwegian financial securities was heavily affected in 2015. For a five-year, senior issue in a Norwegian regional savings bank, the market's premium above NIBOR rose from around 60 basis points at the start of the year to around 134 basis points at year-end. All other things being equal, this results in the relevant discount rate on previously issued fixed income securities with fixed coupons increasing and thus their present value (price) sinking. The drop in prices for own debt results in an unrealised gain, but the drop in prices for purchased fixed income securities results in an unrealised loss. The net effect for Sparebanken Hedmark was a drop in prices for all fixed income securities, inclusive of hedging transactions, positive in the amount of NOK 184 million in 2015, of which NOK 190 million is unrealised. The positive effect of NOK 184 million comes from income on securities issued, NOK 252 million, and a loss from securities investments, NOK 68 million. Cumulatively, an unrealised

loss NOK 140 million as of year-end 2014 has turned into an unrealised gain of NOK 50 million as of year-end 2015. Assuming that all of the securities issued and all of the purchased fixed income securities are not realised until they mature, the Bank will, over the duration of the securities, redeem this unrealised gain of NOK 50 million at a rate of around NOK 17 million per year.

Costs, losses and problem loans

The Group's operating costs were NOK 1,051 (981) million. This represents an increase of 7.1 (7.1) per cent compared with the year before. NOK 55 million of the NOK 70 million increase was due to increased costs in subsidiaries, primarily due to greater activity.

Personnel costs amounted to NOK 590 (543) million. This represents an increase of NOK 47 million, or 9 per cent, which is primarily attributable to increased staffing levels in subsidiaries and ordinary wages growth. The number of full time equivalents in the Group increased by 54 from 673 in 2014 to 727 in 2015.

Other operating costs increased by 5.2 per cent and amounted to NOK 461 (438) million.

Operating costs as a percentage of total income were 46.3 (43.0) per cent.

Total loan losses amounted to NOK 56 (66) million. NOK 6 million of the losses were in the retail market division and NOK 29 million in the corporate market division. The losses in SpareBank 1 Finans Østlandet AS amounted to NOK 21 million. At year-end, the Bank's credit exposure to oil-related industries was less than 0.1 per cent.

Group write-downs to cover net loan loss provisions amounted to NOK 120 (116) million and amounted to 0.27 per cent of total lending.

The loan loss provision ratio, measured as total individual write-downs of NOK 147 million in relation to total non-performing and other impaired loans of NOK 544 million, was 27 (26) per cent at year-end.

Credit quality, measured as total problem commitments in relation to total lending, improved in 2015. In total, the Group's problem commitments amounted to 1.1 (1.2) per cent of gross commitments on its balance sheet and 0.8 (0.9) per cent if one includes loans transferred to the covered bond companies.

Assets and funding

Gross lending to customers, inclusive of loans transferred to the covered bond companies, totalled NOK 61.1 (55.9) billion. At year-end, loans totalling NOK 16.8 (15.4) billion had been transferred to SpareBank 1 Boligkreditt AS and loans totalling NOK 0.6 (0.6) billion had been transferred to SpareBank 1 Næringskreditt AS. The Group's twelve-

month lending growth, inclusive of transferred loans, was 9.3 (6.8) per cent.

Retail customer loans transferred to the covered bond companies as a percentage of the overall retail customer loans (loans on its balance sheet and transferred loans) was 42.7 (42.1) per cent.

Customer deposits totalled NOK 33.5 (31.1) billion. The growth over the past twelve-month period was 7.7 (3.2) per cent.

Deposits represented 76.4 (77.8) per cent of gross lending.

Senior debt to financial institutions and senior securities issued totalled NOK 12.2 (9.6) billion. The average term to maturity of the Bank's long-term funding was 3.8 (4.0) years. The average term to maturity for all borrowing was 3.3 (3.6) years. The average risk premium on the Bank's borrowing portfolio at the end of the fourth quarter was 81 (82) basis points. In addition to senior debt, the Bank had NOK 0.5 billion outstanding in subordinated loans.

Liquidity was very good and there has been good level of interest in the Bank's bonds. At year-end, the Bank had enough reserves to maintain normal operations for fifteen (eighteen) months. The LCR (Liquidity Coverage Ratio) was 121 per cent.

In the opinion of the Board, the Bank's liquidity risk is low.

The Group's equity amounted to NOK 8.7 (7.6) billion, which is equivalent to 15.6 (15.3) per cent of the balance sheet. The Leverage Ratio was 9.2 (9.8) per cent.

The Group's core equity tier 1 ratio was 17.2 (14.8) per cent. The total capital adequacy ratio was 19.1 (17.1) per cent.

Rating

Sparebanken Hedmark is rated A2 by Moody's Investor Service. The rating has a "stable outlook". Moody's has changed the criteria it applies in its new rating methodology in order to assign banks a rating that is one or more grades higher due to the likelihood of government support. Applying the new method, Moody's has moved Sparebanken Hedmark down by one grade because in its opinion the likelihood of government support is low. According to Moody's method, the county of Hedmark is too small a county. In order to mark it up a grade, total lending in the county must amount to more than 5 per cent of the total lending in Norway.

In connection with the announcement of Sparebanken Hedmark's acquisition of Bank 1 Oslo Akershus AS, Moody's published an assessment of the acquisition that concluded that the acquisition was credit positive for Sparebanken Hedmark.

The total equity in the Parent Bank amounted to 14.0 (13.9) per cent of the balance sheet as of 31 December 2015.

Outlook for 2016

Lower economic growth is expected in Norway in 2016. Sparebanken Hedmark's primary market is the Interior Region, which encompasses the counties of Hedmark and Oppland. This region has traditionally been less exposed to cyclical fluctuations than other regions. Its business sector has very little exposure to the oil and gas industry. However, international developments and developments in the rest of the country could affect the Interior Region over time. The Bank is well prepared for any setback with good funding, a

high deposit coverage ratio, stable earnings and a high level of equity.

Sparebanken Hedmark expects the authorities to grant final approval for the acquisition of the remaining shares in Bank 1 Oslo Akershus AS in the second quarter of 2016. The new Group will be Norway's fourth largest regional savings bank with around 1,180 employees and 44 bank branches in the Interior Region, Akershus and Oslo. The aim is for our customers to view us as even more competent with greater breadth and greater competitiveness. The overall risk for the Bank's deposit customers and lenders will decrease. Moody's says this is due to the greater geographical diversification, high proportion of retail customers, low credit risk and continued high financial strength.

The Bank is planning to list on the stock exchange in the second half of 2016. This will enable the Bank to play an active role in the future structural development of the industry. At the same time, it will give the Bank an opportunity to raise new equity and offer ownership to customers, staff and investors.

Notes to the accounts

Note 1 Accounting principles

1.1 Basis of preparation

The financial statements for Sparebanken Hedmark comprise the period 01.01–31.12.2015. The financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting, currently valid IFRS standards and IFRIC interpretations. The consolidated financial statements have been prepared according to IFRS rules and regulations since 1 January 2007.

The reporting currency is Norwegian kroner (NOK), which is also the functional currency of all of the Group's units. All figures are stated in millions of NOK unless otherwise stated.

The financial statements in this interim report have been prepared using the same principles and calculation methods as used in the most recent annual financial statements.

The interim financial statements do not contain all of the information required for complete annual financial statements, and should be read in conjunction with the annual financial statements for 2014. Further, the Group has in this quarterly report used the same accounting principles and calculation methods as in the latest annual report and accounts, except:

IAS 37, interpretation: IFRIC 21

Taxes and levies that are not based on the tax-related result are recognised according to IAS 37 Provisions, Contingent Liabilities and Contingent Assets. IFRIC 21, which is an interpretation of IAS 37, clarifies how a levy imposed by public authorities, which is not a tax pursuant to IAS 12 Income Taxes, should be recognised. IFRIC can, in some circumstances, change the timing of when a liability is recognised, especially when such taxes are imposed due to a given condition on a specific date. For example, in the Bank's financial statements, this means that wealth tax should first be recognised in its entirety in annual financial statements and not in interim financial statements. For the accounting year 2015 the wealth tax was recognized in its entirety as at 31.12.15. The wealth tax for 2015 is estimated to 6 million.

After the introduction of the standards, there has been a discussion as to whether the fee for the year to Norwegian Banks Guarantee Fund shall be recognised in its entirety for the first quarter of 2015. The fee to the Norwegian Banks Guarantee Fund is normally charged on the basis of the average guaranteed deposits and the average calculation base for previous quarters. It has not been regulated whether a withdrawal from the scheme will entail repayment of excess taxes paid. The general practice has been a pro rata charge at the time of registration. This practice and the consideration given to repayment suggest a pro rata charge at the time of withdrawal as well. The Ministry of Finance will make an individual decision about this. This has an important effect on when the fee shall be recognised in the financial statements. Sparebanken Hedmark has chosen to continue the former practice of accruing the fee monthly. The cost for 2015 amounted to NOK 22 million.

1.2 Critical accounting estimates and judgements

The preparation of the consolidated accounts requires management estimates, judgements and assumptions that affect the application of accounting principles. This will affect the reported amounts of assets, liabilities, income and costs. The annual financial statements for 2014 provide a detailed account of critical estimates and judgements in relation to the application of accounting policies in note 3.

On 2 November 2015, it was announced an agreement between Visa Europe Ltd. and Visa Inc. Visa Inc. which acquires all shares in Visa Europe. The agreement values Visa Europe to a maximum of EUR 21.2 billion. Sparebanken Hedmark is a member of the association Visa Norway, which is group member and shareholder of Visa Europe. The transaction, provided that it is carried out, increasing equity of Visa Norway significantly. On the basis of information received from Visa Norway and thorough assessments, Sparebanken Hedmark decided to classify ownership interest in Visa Norway as a financial asset available for sale and recognize an unrealized change in value of NOK 40 million in other comprehensive income (OCI). Expected distribution of Visa Norway, with power over ordinary profit is expected no earlier than the second quarter of 2016. The estimate of the consideration is inherently uncertain and may change until the distribution date.

Sparebanken Hedmark increased its stake in SpareBank 1 Markets AS from 14.70 to 16.64 per cent in the second quarter. In the third quarter, its stake in SpareBank 1 Markets AS was increased to 16.80 per cent. There has been an ongoing restructuring process in the company in the last year.

In the fourth quarter, Sparebanken Hedmark acquired SpareBank 1 SMN's 40 per cent stake in SpareBank 1 Regnskapshuset Østlandet AS. Sparebanken Hedmark now owns 100 per cent of the shares in the company. The Bank previously owned a majority share in the accounting chain with a 60 per cent stake. The changed ownership interest entailed no changes in the treatment of the company in the financial statements and it is incorporated into the consolidated financial statements as before.

Note 9 Determination of fair value of financial instruments

The table below shows financial instruments at fair value by valuation method. The different levels are defined as follows:

- Level 1: Quoted prices for similar asset or liability on an active market
- Level 2: Valuation based on other observable factors either direct (price) or indirect (deduced from prices) than the quoted price (used on level 1) for the asset or liability
- Level 3: Valuation based on factors not based on observable market data (non-observable inputs)

All figures are identical for the parent bank and the Group.

Fair value of financial instruments traded on active markets is based on the market value on the balance sheet day. Considered active if the market prices are easily and regularly available from a stock exchange, dealer, broker, industrial group, A market is pricing service or regulatory authority and these prices represent actual and regularly occurring arm's-length market transactions. The market price used for financial assets is the current purchase price; for financial liabilities the current selling price is used. Instruments included in level 1 include only equity instruments listed on Oslo Børs or the New York Stock Exchange, classified as held for trading or available for sale.

Fair value value of financial instruments that are not traded in an active market (such as individual OTC derivatives) is determined using valuation methods. These valuation methods make maximum use of observable data where available and try to avoid using the Group's own estimates. If all the significant data required to determine the fair value of an instrument is observable data, the instrument is included in level 2. If one or more important inputs required to determine the fair value of an instrument are observable market data, the instrument is included in level 3.

Valuation methods used to determine the value of financial instruments include:

- Fair value of interest rate swaps is calculated as the present value of the estimated future cash flow based on observable yield curves.
- Fair value forward contracts in a foreign currency is determined by looking at the present value of the difference between the agreed forward exchange rate and the foreign exchange rate on balance sheet day.
- Fair value of bonds and certificates (assets and liabilities) is calculated as the present value of the estimated future cash flow based on observable yield curves, including an indicated credit spread on issuers from a recognised broker a reputable brokerage firms or Reuters pricing service.
- Fair value of fixed-rate deposits and loans is calculated as the present value of the estimated future cash flow based on an observable swap yield curve, plus an implicit mark-up calculated as the difference between the reference rate and the interest rate indicated by the Bank's price list on balance sheet day.
- Other methods, such as multiplier models, have been used to determine the fair value of the remaining financial instruments.

The table below presents the changes in value of the instruments classified in level 3:

Note 10 Financial instruments and offsetting

As from 2013 the Bank is required to disclose financial instruments which the Bank considers to fulfil the requirements for netting under IAS 32.42, and financial instruments in respect of which offsetting agreements have been entered into. Both in accordance with IFRS 7.13 A-F.

The Bank has no financial instruments booked on a net basis in the financial statements.

Sparebanken Hedmark has two sets of agreements which regulate counterparty risk and netting of derivatives. For retail and corporate customers, use is made of framework agreements requiring provision of collateral. For customers engaged in trading activity, only cash deposits are accepted as collateral. The agreements are unilateral, i.e. it is only the customers that provide collateral. As regards financial institutions, the Bank enters into standardised and mainly bilateral ISDA agreements. Additionally, the Bank has entered into supplementary agreements on provision of collateral (CSA) with the most central counterparties. The Bank only enters into agreements with cash as collateral.

The assets and liabilities below may be offset.
