			XS2828914767	Senior Preferred	EUR	23.05.2024	30.05.2029	5.775	
			XS3169055442	Senior Non Preferred	SEK	21.08.2025	29.08.2028	318	
				Green Deposits	NOK			40	
Total (a)	33.001	2.990	Total (b)					18.179	
Green Senior Bond eligible assets			a					33.001	
Percentage of Eligible Green Loan Portfolio allocated			b/a					55,1%	
Percentage of Net Proceeds of Green Funding allocated to Eligible Green Loan Portfolio								100,0%	
Eligible Green Loan Portfolio - Unallocated Senior Preferred (NOK million)			a-b					14.822	
New loans added to the portfolio 1Q 2026								2.990	
New loans added to the portfolio since 1Q 2025								5.027	
New loans added to the portfolio since inception (YE 2020)								16.092	
SpareBank 1 Østlandet considers its green bonds as complying with the Paris Aligned Benchmarks Exclusions Criteria 2)									

Footnotes

1) Top 15 % and NZEB-10 % for buildings buildt after 1.1.2021

2) In our opinion, regarding PAB exclusions, SpareBank 1 Østlandet notes ESMA's latest communication in Dec 2024 on assessing compliance with the PAB exclusions for green bonds that are not marketed under the EU Green Bond Standard*. This guidance mentions that a 'look-through' approach may be used to assess compliance with the PAB exclusions which is interpreted to mean that the exclusionary screening may be done at a green asset/project level – hence, given the positive screening approach applied in SpareBank 1 Østlandet's green bond framework for eligible green proceeds, this implies that any negative screening in accordance with the PAB exclusions is not necessary, as the criteria in the framework are inherently fitting within the PAB exclusionary criteria.

SpareBank 1 Østlandet also applies various exclusionary criteria as per the Green Bond Framework. The issuer is however not able to confirm outright that green bonds are fully aligned with the PAB exclusions criteria due to this ESMA guidance not being in scope for part (c) of the PAB exclusions criteria.

Whilst we are not able to confirm currently that each asset meets parts (c) of the PAB exclusions, the issuer ensures that all eligible loans comply with ESG minimum requirements that are reflected within SpareBank 1 Østlandet's internal policies, and seeks to ensure that the Eligible Green Project Portfolio complies, on a best effort basis, with applicable international, national and local laws and regulations, with the aim to mitigate the environmental and social risks associated with the Eligible Green Loans.

In addition, while lifecycle emissions from Norwegian hydropower are generally well below the relevant PAB threshold, the issuer note that, due to current data limitations, compliance with part (g) of the PAB exclusions criteria (GHG intensity of power producers) cannot be fully verified.

Furthermore, reference is made to the Second Party Opinion for SpareBank 1 Østlandet's Green Bond Framework for identified exceptions to full alignment with the EU Taxonomy's DNSH criteria.
