[1] In accordance with the EU Taxonomy Climate Delegated Act, buildings built from 1 January 2021 onwards should meet the 'NZEB -10%' criterion. In Norway, NZEB definitions were announced on 31 January 2023 (Norwegian only). Compliant buildings are assessed against the respective NZEB threshold published by the Norwegian Ministry, expressed as specific energy demand in kWh/m2. At the time of writing all Norwegian buildings with EPC labels of A and some EPC B labels are compliant with NZEB-10%. TEK17 buildings eligible under the previous framework that were originated between 01/01/2021 - 31/01/2023 have been grandfathered in the portfolio as of 31/01/2023 following the publication of the official Norwegian NZEB definitions.
